

# Invitation to the International Symposium on Status Epilepticus in Infants and Young Children (ISSE) Basic Mechanisms, Clinical Evaluation, Prognosis and Treatment April 29 – 30 , 2006 Osaka , JAPAN

Dear Colleagues,

The International Symposium on Status Epilepticus in Infants and Young Children (ISSE)-Basic Mechanisms, Clinical Evaluation, Prognosis and Treatment will be held in Osaka, Japan, for 2 days from April 29 to 30, 2006. An announcement, call for papers, registration information, etc., are presented in our site. The ISSE, 2006, will be an exciting international meeting, just as the ISSE in 2005 was so. The season is the best, the location is wonderful having Kyoto and Nara in the proximity. Economical hotels with reasonable rates (50-80US\$ per day) are amply accommodated. Thus, it is our great pleasure to welcome colleagues from every corner of the globe to this magnificent meeting. We are sure that your active participation will be highly rewarding and beneficial by enabling you to acquire scientific up-dates, by joining with new collegial net circles, and by exposing yourself to traditional Japanese culture. You can't miss this wonderful opportunity to join with us in Osaka.

**Toshisaburo Nagai, MD, PhD**  
President, ISSE

**Yukio Fukuyama, MD, PhD**  
Chairperson, Infantile Seizure Society

## Invited Faculty

Dr. Claude G. Wasterlain, CA, USA  
Dr. Shlomo Shinnar, NY, USA  
Dr. Brian G. R. Neville, London, UK  
Dr. Veena Kalra, New Dehli, India  
And others ( still open )

## Main Topics

- 1) Definition and classification of status epilepticus
- 2) Epidemiology and incidences
- 3) Characteristic clinical features
- 4) Etiologies and underlying disorders
- 5) Algorithms for diagnosis and treatment
- 6) Prognostic determinants and outcomes
- 7) Basic mechanisms
- 8) Both convulsive and non-convulsive status will be the targets

The Symposium "ISSE" will present an OVERVIEW of current knowledge on Status Epilepticus, concerning Basic Mechanisms, Clinical Evaluation, Prognosis and Treatment. The DELEGATES are invited to participate in this special program, and to visit historical areas of Osaka and Kyoto, Japan.

This represents the 9<sup>th</sup> annual meeting of the Infantile Seizure Society (ISS).

Thanks to the development of its port and waterways, **Osaka City** has served as a local point of international exchanges. In the Edo period while thriving as Japan's economic hub, Osaka developed a culture of gastronomy widely known as "Kuidaore", which means eating up fortune by eating. The city developed a beautiful, individual unique landscape as a "watercity", centered around the rivers and canals that crisscross the city. And now, the city embraces various aspects, such as a modern commerce city, towns that still keep their traditional atmosphere. The aural landscape of waterfronts, there are sure to provide you with new experiences and discoveries.

Also you cannot miss these historical spots, **Kyoto & Nara**. Easy commute from Osaka

Social Party at 2005 Symposium, ISSE, in Tokyo

*We look forward to seeing you  
in Osaka, April 2006.*
